Subject: direction for incorporating EFED slides

Steven, Meg,

I talked with Dana S. in person on Friday, Justin in a brief email, and Billy to ensure we're all on the same page as far as direction on how to incorporate EFED's slides into the neonic briefing. Dana said Elizabeth is working on paring down the slides, and we agreed that we can incorporate about 5 VERY high level slides into the current slide deck that had been prepared through PRD.

It's still important to PRD that we don't get bogged down in the details, and get to the important takeaway messages clearly and concisely, and I reiterated this in my discussions today. It's important to Marietta to get EFED to condense their material, and incorporate it into a cohesive presentation with PRD, trying to keep the whole thing to 1 hr. Given that we used 1 hour for the PRD slides alone, and we have 2 hours for Rick, we'll work towards the 1 hour as much as possible, but if it goes over, we can reevaluate before we present to Alex.

I hope this is helpful in your coordination with EFED while I'm out this week!

Dana
